Fire protection

The pictograms show which fire protection standard the respective cover fulfils. However, this does not allow any conclusions to be drawn about the final fire protection of the finished furniture (from left to right: DIN 4102 B1, DIN EN 1021-1 (cigarette), DIN EN 1021-2 (match)).

The fire protection of upholstered furniture depends on several components, such as upholstery foam, interliner and cover, which we test in combination. Only then can we guarantee the greatest possible fire protection.

Green Lounge

These cover fabrics are characterised by particularly good sustainability aspects, e.g. high recyclability, pure materials or raw material savings. If you have any questions about the recycling properties of these cover fabrics, please do not hesitate to contact us.

Green Lounge - SMV takes responsibility for its environment. Under this motto, we at SMV live sustainability, both ecologically and socially. Our measures range from sustainability-oriented product development and sensible recycling to extensive company health management for our employees. In this way, we face up to this responsibility and actively shape sustainability throughout the entire company.

Vegan

From the core, to the foams, to the selected cover and the adhesive, with SMV you can do completely without animal materials. In this cover collection, we have marked covers for you that you can use for a completely vegan piece of furniture.

Cosmopolitan, value-conscious, VEGAN: three attributes that are close to SMV's heart!
As a nature-loving family business, we East Westphalians focus on vegan and sustainable design furniture.

Colour illustrations of the covers

The reference patterns printed in this overview are for orientation purposes. Colour deviations may occur. We recommend requesting an original fabric sample before placing an order.

We share your high standards and for this reason have compiled the appropriate care and cleaning instructions for you in detail on our homepage, which will preserve the longevity of your covers and the guarantee:
